

A black cockatoo with a yellow patch on its neck is perched on a branch in a bush. The bird is facing right, and its beak is slightly open. The background is filled with green leaves and brown branches.

KING GEORGE OVAL - BUSHCARE GROUP

Port Locals Project
with
Our Community
Project

IN 2018, THE KING
GEORGE OVAL
BUSHCARE GROUP
STARTED
PLANTING.

INTRODUCTION

The overall aim of the King George V Planting Program is to enhance the park by providing shade, aesthetic benefits, seating, walking tracks, and habitat for native fauna, through planting programs where the community can become involved.

BACK IN 2018

We believe that this will not only increase the ownership of the park by the community but will also provide opportunities for education in sustainability.

THE PLANTING ACTIVITIES
PROVIDE OPPORTUNITIES FOR
SOCIAL INTERACTION ACROSS
THE COMMUNITY RESULTING IN
A PLACE THAT PEOPLE IN THE
COMMUNITY WILL BE MORE
INCLINED TO USE FOR SOCIAL
INTERACTION.

The program supports a weekly Bushcare group and annual school planting day, with additional opportunities to support special events such as National Tree Day, Trees for Mum, and 350 days for climate action.

VOLUNTEER

The group members are all volunteers from the local area, and everyone is made welcome. They meet each weekend usually on a Saturday morning. If you can spare any time, even once a month, it will be greatly appreciated.

THANK YOU

If you would like to be involved,
please email kinggeorgebushcare@gmail.com
